Job Description:

Contact One, Inc. seeks an experienced and highly motivated individual to perform the role of Software Engineer. The ideal candidate will research, design, develop and implement Enterprise products using SOA, entity frameworks and technologies like Adobe Flex, J2EE, Python and ESRI ArcGIS Desktop, ArcGIS Server, ArcSDE and ArcObjects. The candidate must possess expertise in software design, software deployment, knowledge of scripting language, broad knowledge of RDBMS, documentation, and project management. The selected individual will help Contact One continue to be a leader in innovative 9-1-1 GIS software and services.

This position involves working with internal staff to design and develop server-based GIS solutions for customers located across the United States. This position requires minimal travel to customer locations. The selected individual will have the ability to work under limited supervision with considerable latitude for the use of initiative and independent judgment. Company support, guidance, interaction and training will be provided. Contact One employees must possess honesty, discipline, accountability, diligence, consistency, responsibility, and passion toward the products and services directly related to the purpose of the company.

Overall Job Requirements:

- Software design
- Software development
- RDBMS programming
- GIS software programming

Required Technical Skills:

- Experience with ArcGIS Desktop, ArcGIS Server, ArcSDE
- Programming in Adobe Flex, ArcObjects, Python, PHP, and other related technologies

Required Education:

- MS in Computer Science or Engineering or related

Non-technical Skills:

- Highly motivated, self-learning and disciplined

- Minimal travel. Very infrequent weekend and/or overtime may be required in meeting schedules and deadlines

Working Conditions:

The job position is located in Austin, Texas in a professional office setting. Work will be performed at the company office or at client locations. All necessary hardware and software is currently available. Duties require the physical ability to operate personal computing equipment.

About Contact One:

Contact One is an exciting, privately-held company providing leading-edge GIS software and services to public safety and 9-1-1 agencies located across the United States. We place a high value on teamwork, initiative, self-motivation, and excellence. If you're looking for a challenging yet rewarding job with a friendly, casual environment, this may be the place for you. Headquarters is located in Austin, Texas with a regional office located in Boulder, Colorado. For additional information about Contact One, visit www.contactone.com.
